

# Sight & Urinal Screens Powder Coated & Stainless Steel

# Construction

## Permaseal™ Panels

Consist of two sheet metal faces insulated with a moisture-resistant honeycomb core that is adhered to the inner surfaces and set under pressure. Edges are formed to interlock together to provide a tight fit without crown molding. Corners are welded underneath a clip that is affixed to all corners.

Powder Coated panels are 1" thick, constructed from 22 gauge galvannealled steel, and finished with electrostatic hight grade powder coating and oven cured to provide a mar-resistant finish. Mills offers 15 standard colors.

Stainless Steel Panels are 1" thick and manufactured from 22 gauge, 300 Series stainless steel. Options for finish include #4 satin brushed, 5WL textured, or leather grain finish. Includes cover with self-adhesive protective coating for protection during installation.

#### Sight Screen

Sight screens are fabricated 58" high, floor-braced with a 5" pilaster; attached with four chromed Zamac stirrup brackets, two at the wall and two at the pilaster. Sight screens can also be attached using "2-ear" stainless steel or aluminum continuous brackets at the wall along with a continuous "U" bracket at the pilaster or with stainless steel stirrup brackets. Also available with floor-mounted overhead braced pilasters, floor-to-ceiling pilasters or an aluminum post.

### **Urinal Screens**

Urinal Screens are fabricated 48" high. They may be wall hung and attached to the wall with two chromed Zamac stirrup brackets. Urinal screens can also be attached using 2-ear stainless steel or aluminum continuous brackets, stainless steel stirrup brackets or an 8" top-mounted 14 gauge stainless steel wing bracket with either stirrup brackets or 2-ear continuous brackets. Also available with floor-mounted overhead braced pilasters, floor-to-ceiling pilasters or an aluminum post.

#### Hardware

Compartments shall be provided with all hardware and fastenings to provide a complete installation.

Standard Selections Powder Coated Screen Colors		
Adaptive Shade	Carnival Red	Polo Green
Almond	Cyberspace	Royal Blue
Black	Dove Gray	Toffee Warm Cross
Buff	Dusk Gray	Warm Gray
Burgundy	Glacier Blue	White

# Sight & Urinal Screens Powder Coated & Stainless Steel

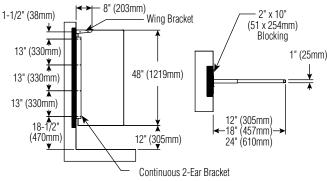

Generally recommended for Sight Screen application. Screen has floor mounting and requires minimum 3" concrete floor for anchoring.

## Wall hung Urinal Screen with Stirrup Brackets

Generally recommended for Urinal Screen application.

# Wall Hung Urinal Screen with Continuous Brackets and Wing Bracket

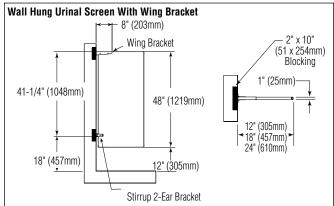

Generally used where specifications require the Urinal Screen to have a continuous bracket in addition to the Mills wing bracket.

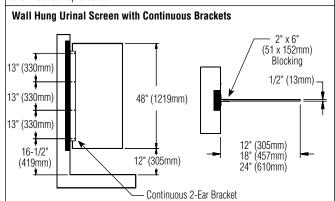

Verify all rough-in dimensions prior to installation.

Consult local and national codes. Conformity and compliance to local and national codes is the responsibility of the installer.
